MAXI WALDORFF, IDA BOARD

Mr. Waldorff presented to the Board for execution the contract with Panhandle Construction in the amount of $295,002.90 for the Calhoun County Airport North Apron Extension Phase 2. (Per Attorney Fuqua, no Board action is necessary as the Board awarded the contract at the previous meeting.)

Mr. Waldorff said the annual “Fly-in” held on September 7th at the Calhoun County Airport was a success.

Mr. Waldorff asked the Board not to approve the Jones’ leases at the Calhoun County Airport.

Attorney Fuqua stated there are citizens on the agenda who would like to speak on this issue and advised the Chairman to allow them to speak before taking any action on this matter.

Chairman Flowers agreed and called the first citizen on the agenda.

JAMES McCROAN

Mr. McCroan stated he has resided in Calhoun County for 68 years and has been in aviation for the past 47 years. He stated he holds an Airline Transport License and also holds licenses to teach on most aircraft or helicopters.

Mr. McCroan stated twenty-five people signed an agreement allowing him to represent their concerns to the Board tonight.

Mr. McCroan brought up concerns with the new lease agreement. He stated he and several other pilots have prepared a lease agreement for the T-hangars for the Board to review and consider implementing. He stated the following:

- Large hangars have enough space to park aircraft and other items and pilots should be allowed to store other items as long as the primary space is occupied by aircraft, kept clean and returned to original condition when vacated. Renter would be responsible for returning the hangar to original condition.
- Board should not require tenants to have liability insurance naming the Board of County Commissioners as an additional insured.
- New runway extension won’t do Airport any good until the runway is cleared of one tree that extends into the approach slope.
- Would like to be given a reason if told “no” by the IDA Board or BOCC.
Mr. McCroan stated he is personally against having the Tri-County Ag Park at the Airport.

Mr. McCroan stated in relation to the Jones’ lease, Title 49 of the USC states any airport receiving federal funds will be available for public use without unjust discrimination. Attorney Fuqua responded it was not unjust discrimination to put restrictions in a lease.

Attorney Fuqua explained to Mr. McCroan the County owns the Airport property and could be liable for any accident, injury or damage that occurs on the property.

Mr. Fuqua recommended the Board keep the requirement for liability insurance in the lease.

After much discussion, it was the general consensus of the Board to keep the insurance requirements in the hangar lease.

- Ms. Bowers stated she has knowledge of another pilot paying $15,000 cash for commercial work and the plane was not operable when returned to the pilot.
- Jones’ park vehicles on runway blocking Bowers plane
- Jones’ use curse words and play radio too loud
- Ms. Bowers stated her husband witnessed Jones’ working on Jump plane
- Jones’ steal hangar space by parking their plane in empty hangars
- Jones’ lives in hangar which is not allowed

- Jones’ run electrical cords from other pilot’s hangars to their hangar without permission
- Jones’ run electrical cords across runway — planes are running over electrical cords
- Jones’ spray water on building all day long
- Tony Jones has a paint booth in his hangar and uses extra electricity
- Jones’ dog and other dogs run loose at the Airport

Ms. Bowers stated if the Jones were allowed to stay things would get worse.

Ms. Bowers asked the Board to uphold the vote of the IDA Board. She stated she and her husband are in full support of Maxi Waldorff and the IDA Board.

Mr. Stanley wanted to make it clear to the Board he was not pushing the idea of the Pine Island Water System, but if the Board is interested in pursuing to let him know.

Commissioner McDougald spoke about the Pine Island Water system and stated this grant would be 100% funded.

Mr. Stanley stated he spoke to Mr. Pope with Florida DEP who is administering this grant and the only way the Pine Island Water System would be feasible for Calhoun County to pursue would be with an Inter-local Agreement with the City of Blountstown where the County would be the grant recipient and construct the project. As soon as the water system was brought up to all codes, the City would own and operate it.

Joe Wood asked if this was a one-time deal. Mr. Stanley stated this grant is funded with reserve funds and it is a one-time deal. These funds will not be available next year.

Mr. Wood stated there is $24,000 left in the spray program budget for this fiscal year ending September 30, 2013. He stated the spray program budget for next year has been reduced from $42,000 to $12,000. He would like to use the $24,000 left over in the current budget to purchase chemicals for next year. Mr. Wood asked the Board to set aside the procurement policy to allow him to purchase the chemicals from quotes and not advertise for bids.

Attorney Fuqua said one option is an hourly rate and Mr. Arrant is requesting $125.00 per hour. Attorney Fuqua said this is very reasonable for his skill in planning. Attorney Fuqua pointed out the hourly rate would not save money if every time a developer, REALTOR, or property owner calls with a question, they are instructed to call Mr. Arrant. Attorney Fuqua said the Board will need to decide how this will be handled.

**TONY ARRANT, COUNTY PLANNER**

Mr. Arrant stated when he was originally hired, he only wanted to do the Comp Planning for the required portion and wanted to train someone in-house to handle the day to day calls. Mr. Arrant stated the former County Administrator and the Building Inspector were taking the day to day calls until
